

TEMPLATE 4: Practical Aspects for Teachers

• School

Name, location, type of school, any information that may be relevant to understand the way the project has been carried out. (Max. 5 lines).

• Students

Age, class, number of students involved. If relevant, indicate here aspects such as multiculturalism, special needs, low basic skills, etc.

• Adaptation to curriculum

Explain briefly, if relevant, how you adapted the project to the school curriculum, if you used a multi-curricular approach, etc.

• Duration of the project

How many hours did it last? How was it organised (through a week, several months, a whole school year, etc.)

- Did you share your memories with another European school?

If so, please summarise your experience, difficulties and problems encountered, suggestions and advice, etc.

[Large grey rectangular area for text input]

-Suggestions and advice for teachers willing to implement the SEM@S methodology

Please include here any comment or recommendation you may think useful for future implementations.
